I. BACKGROUND of CBI

CBI was incorporated as a private nonprofit, 501(c)(3) organization in 1982 and has an almost 40-year history of providing comprehensive, medically integrated behavioral health programs which include prevention, education and treatment services using cutting edge, nationally recognized treatment models throughout Arizona. CBI is one of the largest statewide providers offering fully integrated medical and behavioral health care in seven Arizona Counties by providing a continuum of care that begins with prevention and continues for individuals and families through treatment and recovery.

During the past five years, CBI has experienced tremendous growth and transformed recovery of those we serve holistically and more effectively, by delivering direct physician and nurse practitioner services, both on site throughout Arizona, and through telemedicine to each of our service locations. CBI operates several programs throughout the state that are licensed by the Arizona Department of Health Services Division of Behavioral Health. Our prevention and clinical programs are accredited by the Commission on Accreditation of Rehabilitation Facilities (CARF).

II. CBI RFP – MEDICATION AND MEDICAL SUPPLIES

CBI is experiencing tremendous growth, especially in our adolescent services area. CBI is seeking proposals from qualified vendors to supply CBI sites with medication and medical supplies.

All qualified vendors that are interested in providing these services to Community Bridges, Inc., are invited to submit their Statement of Qualifications (SOQ) with pricing. All SOQs must comply with the requirements specified in this Request for Proposal (RFP)

III. PROJECT DESCRIPTION

Once complete, the Project will result in providing all facilities with medication and medical supplies as needed.

- Community Bridges, Inc. sites with medication and medical supplies.
- Community Bridges, Inc. may include other miscellaneous items.
- Delivery requires strict signature requirements.
- CLIA waived testing supplies is mandatory.
- Shipment tracking information is required for all orders.
- Medication is required to be in “UD” (Unit Dose) form if this option is available.

The estimated total of medication and supplies budget is approximately \$1,000,000 per year. CBI anticipates substantial growth within the next five years. Medication and supplies will be funded through Local, State, Federal and Grant funding.

IV. PRE-SUBMITTAL CONFERENCE

An electronic Pre-Submittal Conference will be held on 01/31/2025 at 3:00 PM PDT through Microsoft Teams. At this meeting, the Project team, including CBI staff will discuss the scope of work, general contract requirements and respond to questions from the attendees. Attendance at the Pre-Submittal Conference is not mandatory. All interested firms may submit a SOQ, whether they attend the conference or not. Any parties interested in attending the Pre-Submittal Conference should request an invitation from RFP@cbridges.com, Attn: Dan Hines, Director of Facilities, Procurement, and Projects – Construction.

All interested firms are encouraged to attend the Pre-Submittal Conference since CBI staff will not be available for meetings or to respond to individual inquiries regarding the project outside of this Pre-Submittal conference. The Selection Committee will evaluate each SOQ in accordance with the criteria set forth in Section V above. The Selection Committee will produce a rank-ordered list of the submitting firms, and interviews may or may not be conducted as part of the selection process. If interviews are not held, then CBI will make the final award decision.

If interviews are held, the top three (3) to five (5) ranked firms/teams will be invited by email to accept or decline the opportunity to interview.
