I. BACKGROUND of CBI

CBI was incorporated as a private nonprofit, 501(c)(3) organization in 1982 and has an almost 40-year history of providing comprehensive, medically integrated behavioral health programs which include prevention, education and treatment services using cutting edge, nationally recognized treatment models throughout Arizona. CBI is one of the largest statewide providers offering fully integrated medical and behavioral health care in seven Arizona Counties by providing a continuum of care that begins with prevention and continues for individuals and families through treatment and recovery.

During the past five years, CBI has experienced tremendous growth and transformed recovery of those we serve holistically and more effectively, by delivering direct physician and nurse practitioner services, both on site throughout Arizona, and through telemedicine to each of our service locations. CBI operates several programs throughout the state that are licensed by the Arizona Department of Health Services Division of Behavioral Health. Our prevention and clinical programs are accredited by the Commission on Accreditation of Rehabilitation Facilities (CARF).
